Comments on the Parcel G RTCs

Attachments: RTC_Draft Parcels B and G Soil Report_021518.xlsx

Importance: High

Hi Matt and Pat,

Please see the attached updated response to comment document for the Parcels B and G report. It includes a response to Matt's comment below (now row 96 and 97 in Parcel G tab) and the responses to the comments we received from DTSC on the responses to their Parcel G comments (highlighted blue on Parcel G tab).

Here is what you have not yet reviewed by person:

Pat - you need to review responses to your comments on both Parcels G and B tabs and the new responses to DTSC's new comments on the Parcel G tab (rows highlighted blue) Matt - you need to review responses to your comments on rows 96 and 97 in the Parcel G tab and the new responses to DTSC's new comments on the Parcel G tab (rows highlighted blue)

It would be great to get these out as soon as possible, the version control is getting crazy on these responses! Thanks, Kim

Kim.

See below comment. I think Matt Liscio still needs to provide his input.

Parcel G Row 90 and 91. Figure 1-2 does not cover all of where TtEC worked from 2002-2014 as the response suggests. TtEC performed work in the Parcel E TCRA's, IR 7/18 and several buildings in Parcel A for example that are not reflected on the map nor where they evaluated in this work effort.

Matt

Hi Pat and Matt,

Responses to your comments on the RTCs are provided in the attached (along with an updated redline report). Please review and let me know if you have any questions or want to discuss.

Thanks!

Kim

Subject: RE: For Review: Responses to Technical Team's Parcel B Comments [EXTERNAL]

Parcel G EPA Minor Comment #4 - it is a higher speed that reduces the probability of radiation detection - not a lower speed.

Parcel G EPA General Comment #18 and Parcel B EPA General Comment #28 - I think we need a better explanation for recommending confirmation sampling in a trench unit and not in the corresponding fill units composed of the excavated soil.

Parcel G DTSC General Comment #2 - response does not seem to fit comment Parcel G DTSC Specific Comment #8 - delete "Please check and edit our response."

Parcel B DTSC Comment #4 - Consider rewording, "This description from the 2008 CSM was incorporated into the text. The CSM will be updated in the Work Plan."

Subject: [Non-DoD Source] For Review: Responses to Technical Team's Parcel B Comments

Hi All,

Attached are the responses to Technical Team comments on the Parcel B portion of the Parcels B and G soil report. We updated the RTC file with a new tab with the Parcel B comments and updated the redlined version of the report to address the comments.

Please note, there are some comments within the redlined report noting the outstanding changes (e.g., editing, minor changes to figures and appendices) that will be made for the final.

Thanks!

Kim Henderson
